Engineering a Greener Tomorrow

Softgence Technologies (India) Private Limited – Energy Division

is a technology-driven renewable energy company delivering end-to-end rooftop solar solutions across Residential, Commercial, Industrial, Institutional and Government sectors.

Our Mission

To accelerate India's transition to clean energy by delivering innovative, reliable and cost-effective solar solutions.

Our Vision

To be a leading force in renewable energy by creating sustainable value for our customers and communities.

Our Core Values

- Integrity
- Innovation
- Excellence
- Sustainability
- Customer First

Why Renewable Energy?

Fossil fuels are limited and harmful to our planet. Renewable energy is clean, abundant and sustainable — the key to a better tomorrow.

Why Rooftop Solar?

- Utilizes unused rooftop space
- Generates **clean electricity**
- Reduces **electricity bills**
- Provides **energy independence**
- Low **maintenance** & long life
- Increases **property value**
- **Environment friendly**

Why Now?

- Rising electricity costs
- Abundant sunlight in India
- Government support and attractive subsidies
- Better technology and higher efficiency
- Smart investment for a secure future

Key Benefits of Going Solar

Lower Electricity Bills

Save up to 100% on monthly electricity bills.

Energy Independence

Generate your own power and reduce dependence on the grid.

Environmental Responsibility

Reduce carbon footprint and contribute to a cleaner planet.

Increase Property Value

Solar installed properties have higher rental and resale value.

Reliable Power

Ensures uninterrupted power supply and peace of mind.

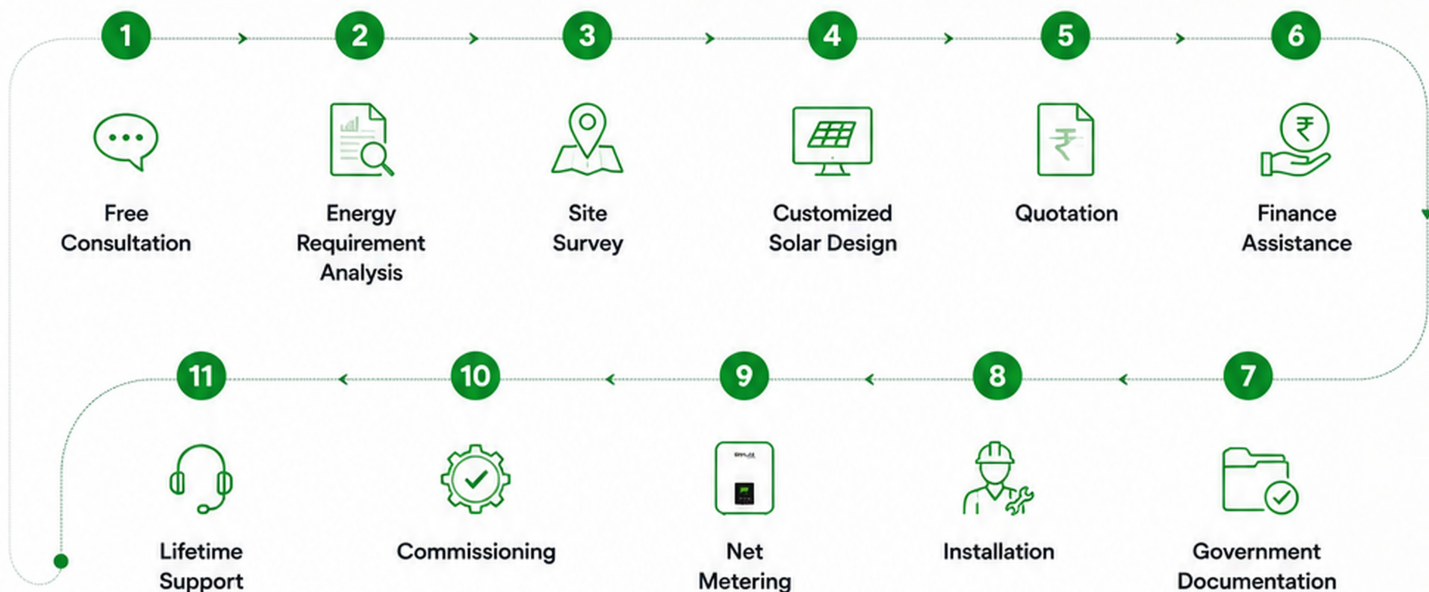

Long-term Investment

25+ years of performance with excellent return on investment.

Your Solar Journey with Softgence

A Simple. Transparent. Hassle-Free Process.

How Solar Works

End-to-End Support

From consultation to commissioning and lifetime support.

Expert Engineering

Customized designs for maximum efficiency and long-term performance.

Transparent Process

Clear communication, honest pricing and complete transparency at every step.

Lifetime Partnership

We are with you today, tomorrow and for the lifetime of your solar system.

Make Solar More Affordable Than Ever

Government Subsidy
PM Surya Ghar Muft Bijli Yojana

Central Government Subsidy

Up to
₹78,000*

Uttar Pradesh State Subsidy

Up to
₹30,000*

Combined Benefits

Up to
₹1,08,000*

- ✓ Simple Process
- ✓ Maximum Benefits
- ✓ Expert Assistance

*As per applicable Government Schemes and eligibility.

Eligibility Criteria

- ✓ Property Owner / Co-owner
- ✓ Valid Electricity Connection
- ✓ Solar System on Rooftop
- ✓ System Capacity as per Scheme Norms
- ✓ No Previous Subsidy Claim for the Same Property

Required Documents

- ✓ Aadhaar Card
- ✓ Electricity Bill
- ✓ Property Documents
- ✓ Bank Account Details
- ✓ Cancelled Cheque
- ✓ Photo of Installation (Post)

We Provide Complete Support

- ✓ Application Assistance
- ✓ Document Verification
- ✓ Subsidy Follow-up
- ✓ Net Metering Support
- ✓ End-to-End Guidance

Typical Subsidy Timeline

Submit Application

Document Verification (7-15 Days)

Approval (7-15 Days)

Installation & Net Metering (7-15 Days)

Subsidy Credit to Bank Account (15-30 Days)

Important Notes

- Subsidy amount may vary based on system capacity and government norms.
- Timelines may vary as per state and central government approvals.

Subsidy Process

01

Application
You apply with our support

02

Verification
Documents verified by authorities

03

Approval
Application gets approved

04

Installation
Solar system installed

05

Net Metering
Inspection & net metering setup

06

Subsidy Credit
Subsidy amount credited directly to your bank account

Timeline:

Typically 30-60 Days

(Subject to government process)

Finance Made Easy

Up to 100% Finance

Easy EMI

Future Ready

Reliable Forever

Which Solar System is Right for You?

Understand the three major rooftop solar systems in simple language and choose the one that perfectly matches your energy needs.

01 ON-GRID SOLAR SYSTEM

Best for Homes & Businesses with Reliable Electricity Supply

How It Works

- Solar panels generate electricity during daytime.
- Your home uses solar energy first.
- Extra electricity is exported to the electricity grid.
- During night or cloudy weather electricity is taken back from the grid.
- Net Meter records both import and export.

Best For

Advantages

- ✓ Lowest installation cost
- ✓ Maximum electricity bill savings
- ✓ Government subsidy available
- ✓ Net Metering
- ✓ Minimal maintenance
- ✓ Excellent ROI

Important Note

Requires an active electricity grid and normally does not provide backup during power cuts unless paired with battery storage.

02 OFF-GRID SOLAR SYSTEM

Best for Areas with Limited or No Grid Electricity

How It Works

- Solar panels generate electricity.
- Excess electricity is stored inside batteries.
- Batteries power your home during the night or when sunlight is unavailable.
- Completely independent from the electricity grid.

Best For

Advantages

- ✓ Complete energy independence
- ✓ Battery backup
- ✓ Works without electricity grid
- ✓ Ideal for remote locations

Important Note

Higher installation cost because of batteries. Battery replacement may be required after several years.

03 HYBRID SOLAR SYSTEM

The Best Combination of Savings & Backup

How It Works

- Solar panels power your home during the day.
- Extra electricity charges batteries first.
- Remaining surplus is exported to the grid.
- During power cuts batteries automatically power the house.

Best For

Advantages

- ✓ Maximum electricity savings
- ✓ Battery backup
- ✓ Grid connectivity
- ✓ Smart energy management
- ✓ Future-ready technology

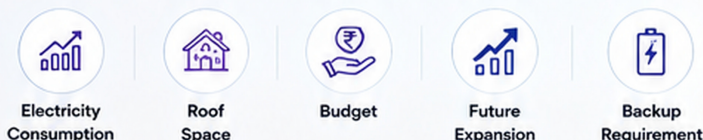

Important Note

Highest initial investment but delivers the greatest convenience and energy security.

FEATURE	ON-GRID	OFF-GRID	HYBRID
 Government Subsidy	✓ Available	Limited	✓ Available (Eligible Models)
 Electricity Bill Savings	★★★★★ Excellent	★★★ Moderate	★★★★★ Excellent
 Battery Required	No	Yes	Yes
 Backup During Power Cut	No	Yes	Yes
 Net Metering	Yes	No	Yes
 Maintenance	Low	Medium	Medium
 Initial Investment	Low	High	High
 Best Suitable For	Homes & Businesses	Remote Areas	Premium Homes & Businesses

Still Not Sure Which System Is Right?

Our certified solar experts will recommend the ideal solar solution based on:

- ✓ Free Consultation
- ✓ Free Site Survey
- ✓ Customized Proposal
- ✓ Subsidy Assistance
- ✓ Easy EMI Available

Real Stories. Real Savings.

Thousands of happy customers are already enjoying the benefits of clean solar energy.

Rajesh Sharma
Homeowner, Lucknow

“ Our electricity bill has come down to almost zero! The team was professional and the installation was seamless.

Monthly Savings
₹3,200

Amit Verma
Shop Owner, Kanpur

“ Best decision for my business. Solar energy has reduced my operational cost significantly. Great support from Softgence throughout!

Monthly Savings
₹6,800

Dr. Namit Singh
Clinic Owner, Varanasi

“ Uninterrupted power for our clinic and huge savings every month. Highly recommended!

Monthly Savings
₹5,100

Suresh Patel
Farmer, Barabanki

“ Solar pump is a blessing for my farm. No more diesel costs and worry-free irrigation.

Monthly Savings
₹4,000

“ Excellent quality, on-time installation and great after-sales service. Softgence is a name you can trust.” — Our Valuable Customers
